Assignments

You are each required to attend all seminars; notes should be taken during each as summaries will later be written about them. Each summary should be roughly a page and a half or more in length single spaced. The prion video summary should be four pages long since you will be reading the paperback Mad Cows and Cannibals.

Class Attendance

A substantial part of this seminar course is based upon classroom attendance. Regular and punctual attendance is therefore required. Absences for University approved reasons must be discussed with Dr. Lopez or Roger in advance. Absences due to illness will require verification. Poor attendance may affect your final grade. Class Attendance will be taken before every seminar; this information will be used when calculating your final grade. It is recommended that **all** students attend **all** classes.

Exams

There are no exams for this course.

Grading

A large portion of your grade will be based on the summaries that you will write. Due to the small number of seminars scheduled, your attendance will be figured into calculating your course grade.
