

**MICROBIOLOGY & IMMUNOLOGY GRADUATE PROGRAM
STUDENT SEMINAR SERIES**

| Spring 2015 Student Seminar Series | | |
|------------------------------------|------------------------|--|
| Jan. 19 | | Martin Luther King Jr. Holiday |
| FEBRUARY, 2015 | | |
| 5 | Timothy Plitnik | Examination of the ability of Human Immunodeficiency Virus-1 To evade SAMHD1- mediated restriction in Macrophage |
| 12 | Jennifer Rainho | Role of Nef in sensitivity of SIV-infected macrophages to CD8+ T cell killing |
| 19 | | |
| 26 | | |
| | | |
| MARCH, 2015 | | |
| 5 | Kelly McAvoy | The Reduction of Surrogate Light Chain in Old B Cell Precursors Promotes Reduced B Lymphopoiesis and Increased B Cell Reactivity to Common Self Antigens |
| 12 | | |
| 19 | | |
| 26 | Anugraha Rajagopalan | |
| | | |
| APRIL, 2015 | | |
| 2 | Yvonne Pupilampu-Dove | |
| 9 | Connor Dwyer | Expression of a mutant transgenic IL-2R β subunit in NOD mice to further define the IL-2-dependent risk in T1D |
| 16 | | |
| 23 | Darlah Lopez-Rodriquez | The Role of the Hypoxia inducible Factor 1 alpha in Gammaherpes virus Replication and Pathogenesis |
| 30 | Vytas Dargis-Robinson | The Interplay between KSHV and HIV in Primary Human Monocytes and Macrophages |
| | | |
| | | |
| MAY, 2015 | | |
| 7 | Natasha Ward | Selective Enhancement of Tregs and Tolerance by a Novel IL-2 Based Biologic |
| 14 | Matthew Phillips | Gut Toxicity of Polychlorinated Biphenyls: Effects on the Host and Microbiome |
| 21 | Rchard Hunte | The Role of GEFs in Viral-Mediated Oncogenesis |
| 28 | Dillon Betancourt | Retargeting VSV oncolytic vectors to treat Adult T cell Leukemia |
| | | |
| | | Please forward me the title of your presentation! |
